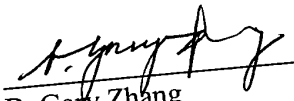
$-OCH_2CH_3$; R_3 is $-SO_2CH_3$; n is 1; X is =C=O; X' is $=CH_2$; R_4 is H; and R_5 is $-(C_zH_{2z})N(R_6)(R_7)$, wherein z is 0, R_6 is cyclopropanoyl, and R_7 is H.

Applicants respectfully submit, however, that a single search directed to compounds of formula (I) would necessarily encompass all of the claims in Groups I-III. For this reason, it is believed that the examination of Groups I-III would not impose an unreasonable burden on the Examiner. *See* Manual of Patent Examining Procedure, §803.01. Therefore, Applicants respectfully request that the restriction requirement be withdrawn.

No fee is believed to be due for this submission. Should any fees be required, however, please charge such fees to Jones Day Deposit Account No. 503013.

Respectfully Submitted,



47,331
